Don't forget to call on the Flfth ward ladies at the old school house on Madison svenue, opposite Lester park. Go and fill up on the nice things they will serve you

When this scribe writes "shrievalty" he means just that. It seems though, that your compositor and proof-reader had a different idea and so set it up and let it go "speriffalty."

The opening excursion to Syracuse will take place next Tuesday and be under the suspices of the Ogden brass band. They'll keep things straight and insure all their patrons a good time.

The third story of the Woodmansee building west of the Co-op, has been commenced upon. The work on the front indicates that the building will be one of the handsomest yet erected in this city.

All over the business part of the city store fronts are being repaired and painted, so that when Rex and his retinue arrive they will be charmed by the neat and naty appearance of things that they will see.

The first annual reception given by the cadets of the Ogden military academy will be held on the 19th instant. The young ladies who have received invitations are in a flutter of excitement in anticipation of the event.

A fine asphaltum walk, twenty feet wide, is being laid down on the east side of Washington avenue, between Twenty-third and Twenty-fourth streets. The sidewalk ordinance is being compiled with in many parts of the city and by next fall the principal padestions. pal pedestrians, thoroughfares will be in good condition.

A new lodge of Knights of Pythias will soon be organized in this city. The uniform rank has just been instituted and is now in good working condition. Lincoln Division, No. 2, will be out next Tuesday morning to escort the grand lodge to Castle hall on Twenty-fourth street.

The accident rectioned in next state.

The accident mentioned in yesterday morning's Herallo as having occurred to a child named Jones, was true except as to the name. The child was a daughter; of O. D. and E. Cook, residing at Wilson, who, during the absence of her parents, used kerosene in lighting a fire. She was fearfully burned, and the doctor held out but slight hopes of her recovery.

As previously stated in this column, the

As previously stated in this column, the Ogden Power cumpany will go on with the work which was brought to an abrupt stop some time ago. H. H. Henderson has been elected president, vice C. Mayne, resigned, and R. C. Lundy is now treasurer. New blood, in the shape of solid capital, has taken the place of considerable wind and the dam will certainly be built.

The municipal solons will convence in

The municipal solons will convene in regular weekly session this evening. The question of the tax levy will be the most important one to call for settlement. Mayor Kiesel's idea is the right one, in the opinion of a great many citizens, probably a majority of the taxpayers. Ogden is getting to the front last enough and it will be well to make haste slowly. It will make the city It will make the city healthier in the future.

Three large and handsome church edi-Three large and handsome church edifices are now being erected in Ogden, all of them on Twenty fourth street. Ground was broken yesterday for the Presbyteman church, which will have a commanding site on the southeast corner of Twenty-fourth street and Adams avenue. This church will cost upward of thirty thousand dollars and be a very handsome building. When the Roman Catholics complete their \$100,000 editioe, on which work is now progressing, there will be three church buildings on Adams avenue.

The helis and whistles, sounded to along

ings on Adams avenue.

The bells and whistles sounded an alarm of fire about 7 o'clock yesterday morning. The alarm was occasioned by the burning of some "excelsior" in a log house adjoining the warehouse of the Boyle Farniture company, on Twenty-eighth street, between Adams and Jefferson avenues. The fire department responded promptly and got a stream on the fire, after it had been extinguished by a bucket brigade before the firmen's arrival. The amount of damage was slight, consisting merely of the fourning of the "excelsior."

The unlimited use of the hose for lawn

The unlimited use of the bose for lawn sprinkling is not permitted, so the local press inform the people of Ogden. All right. Now let there be a strict and impartial enforcement of the ordinance. If certain parties can lawfully use the water during certain hours, let the officials see to it that they do not encroach upon the rights of others who are entitled to the water during other hours. Do this, and all will be satisfied. Otherwise, there will be some tall kicking. tall kicking.

Something should be done to abate the nuisance at the foot of Twenty-fifth street, north side, opposite Murphy's store and right in front of the passenger station. A hole in the ground is full of stagnant water. The hole was excavated over a year age, work upon it being started on the morning of the arrival of the first Colorado excursion. About the first thing that Rex and his royal retinue will see when they leave the depot will be the green without the gold, for this pool is now in that condition—a slimy occe. If it cannot be drained out it should be boarded over by order of the city council. It is a malaxia breeder and an eyesore to every passer-by, and smells to heaven.

It will be well for parties who are buying lots in the various and several additions to Ogden city (and they are thicker than leaves) to first assertain whether the plat of the addition in which they propose to purchase has been recorded in the county recerder's office. Plats of additions must be recorded before the owners of them can legally sell a lot in them. If they sell a lot before recording the plat, they are subject to a fine of 8300, and so for every lot sold. It will thus be seen that those who purchase in an addition, the plat of which hus not seen recorded, do not get a real title to their lot. It behooves intending purchasers in a sidditions to lock into this matter before the fine of the plat of which hus not seen recorded, do not get a real title to the fine of the plat of which hus not seen recorded, do not get a real title to the plat of which hus matter before the fine of the plat of which hus not seen recorded, and the plat of which hus not seen recorded in the county receive in the county of the plat of

## How's Your Liver?

Is the Oriental salutation,

knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and con-stipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known or earth. It acts with extraordinary power and efficacy.
